

# BITCOIN MINING FRANCHISE

---

**Your Gateway to Bitcoin Mining**

Bitcoin

# "Empowering the Future of Digital Wealth through Secure Bitcoin Mining."

As a bitcoin mining franchisee, you can expand your machine capacity, establishing your financial framework and determine your rate of return, enabling your investments to grow progressively.

## "Our Bitcoin Mining Franchise lets investors generate passive income while supporting sustainability. We're driving profitability and paving the way for a greener future."

SourceMo USA, a pioneering force in the cryptocurrency mining industry, proudly unveils its latest innovation: the Bitcoin Mining Franchise, offering individuals the opportunity to capitalize on the booming crypto market while harnessing the power of renewable energy. With each mining farm meticulously designed to generate substantial passive income annually, this franchise presents a groundbreaking avenue for investors to secure their financial future.

Unlike traditional mining operations that demand extensive technical expertise and substantial capital, the Bitcoin Mining Franchise simplifies the process by providing turnkey solutions. Investors can purchase their own mining farm, strategically located within a qualified facility, and enjoy comprehensive benefits including management fees, insurance coverage, and annual hosting services. This seamless approach ensures maximum profitability with minimal hassle, empowering individuals to dive into the lucrative world of cryptocurrency mining with confidence.

Opportunity

As Bitcoin's economic influence grows, recognizing the pivotal role of the mining industry becomes crucial for both investors and users seeking opportunities in tomorrow's digital gold

# Bernstein Analysts Predict Bitcoin Price Surge to \$200,000 by 2025

Bernstein analysts have raised their Bitcoin price target to nearly \$200,000 by the end of next year, up from \$150,000. This follows strong inflows into U.S. Bitcoin exchange-traded funds (ETFs) since January.

The analysts predict that spot Bitcoin ETFs will account for about 7% of the circulating Bitcoin supply by the end of 2025. They foresee approvals for Bitcoin ETFs at major financial institutions in the third and fourth quarters of this year.

Describing the institutional basis trade as a "Trojan Horse" for adoption, the analysts note that 80% of current ETF flows come from retail investors. Bernstein estimates combined ETFs have already attracted \$15 billion in new flows. Projections include:

- Bitcoin ETFs representing 7% of Bitcoin supply by 2025 and 15% by 2033.
- Spot Bitcoin ETFs reaching \$190 billion in assets under management by 2025 and \$3 trillion by 2033.

This chart uses the price movements from the past 1,458 days (sourced from [www.bitbo.io](http://www.bitbo.io)) to predict future prices for the next 1,458 days. It also shows the previous after-halving peak price and the projected peaks after each upcoming halving.

Interpreting Cycle Repeat: The future 1,458-day projections are estimates based on the assumption that Bitcoin's past behavior will repeat exactly. Many factors could cause Bitcoin to perform differently. Therefore, this chart should be seen as theoretical.

# BlackRock®

BlackRock's Bitcoin ETF, named the iShares Bitcoin Trust, was approved by the U.S. Securities and Exchange Commission (SEC) and began trading on Nasdaq on January 11, 2024. This approval marked a significant milestone, as it was the first-ever spot Bitcoin ETF to receive regulatory approval in the United States

## 306,978.5 BTC

As of July 2024, BlackRock's iShares Bitcoin Trust (IBIT) holds approximately 306,978.5 BTC. This substantial amount makes it one of the largest institutional holders of Bitcoin, representing an investment of over \$1.8 billion in just six months. This significant acquisition underscores BlackRock's growing influence and confidence in the cryptocurrency market.

## Why is BlackRock's Bitcoin ETF significant?

**Our mission is to establish the United States as the premier destination for Bitcoin mining worldwide. We aim to offer you the opportunity to join us as a miner in this endeavor.**

Bitcoin's innovation lies in its ability to coordinate trust and facilitate the transfer of value without relying on a centralized authority. The key mechanism enabling this is proof-of-work mining, a process where miners compete to generate a cryptographic solution that matches specific criteria. When a correct solution is reached, the successful miner is rewarded with newly minted bitcoin and transaction fees. This process not only adds new bitcoin to the money supply but also secures the network against double-spending attempts.

Unlike traditional mining operations that demand extensive technical expertise and substantial capital, the Bitcoin Mining Franchise simplifies the process by providing turnkey solutions. Investors can purchase their own mining farm, strategically located within a qualified facility, and enjoy comprehensive benefits including management fees, insurance coverage, and annual hosting services. This seamless approach ensures maximum profitability with minimal hassle, empowering individuals to dive into the lucrative world of cryptocurrency mining with confidence.

The reward process for mining will continue until 21 million bitcoins are in circulation. At that point, the issuance of new bitcoins will cease, and miners will be compensated solely through transaction fees.

Bitcoin mining is essential for maintaining the ledger of transactions on which Bitcoin is based. It has also sparked controversy due to concerns about its environmental impact, given its significant energy consumption.

Bitcoin Mining Franchise aims to foster the expansion of your financial freedom through sustainable Bitcoin mining. We are committed to providing reliable solutions you can trust. Each of your mining servers operates within our state-of-the-art data center, ensuring optimal performance and security.

## Services

If you are interested in a lucrative Bitcoin mining opportunity, the Bitcoin Mining Franchise offers a truly 100% turnkey experience!

The Bitcoin Mining Franchise is the right choice to maintain, manage, and optimize your mining equipment.

You will earn bitcoins from the very first day your miners are deployed.

This is a reliable and maintenance-free way to earn profits from Bitcoin mining.

# What does our Bitcoin Mining Franchise Service include?

- **Setting Up Mining Equipment**

Configuring specialized hardware like ASIC miners

- **Optimizing Bitcoin Mining Equipment**

Equipment is routinely tested to ensure machines are optimized

- **Energy Management**

Constantly comparing electricity prices to mining costs

- **Troubleshooting Miners**

Like any machinery, miners can experience breakdowns. We ensure they are repaired promptly.

- **Mining Software Installation**

Installing software and updates to manage mining operations

- **Monitor Production**

Bitcoin mining production is monitored continuously.

- **Transaction Validation**

Verifying and recording transactions on the blockchain

- **Internet and Insurance**

Reliable internet connectivity and insurance for miners are additional factors

# Dedicated Data Center

Expanding your mining operation directly correlates with your potential bitcoin earnings. While many miners begin with a single server at home, scaling up requires investment in a dedicated data center to house and operate multiple servers and computers.

## Includes:

- **500 Bitcoin miners housed in a dedicated data center with enclosed spaces and efficient cooling systems**
- **Cost: \$2.5 million**
- **Earnings:**
  - **Generates approx \$95,400 monthly at a Bitcoin price of \$60,000**
  - **Generates approx \$112,650 monthly at a Bitcoin price of \$65,000**
  - **Generates approx \$129,300 monthly at a Bitcoin price of \$70,000**

# Master Franchise

The master franchise enables you to scale your operations, reinvesting profits into additional bitcoin mining units and providing hosting services for other miners.

## Includes:

- **300 Bitcoin miners are housed in our facility, with the capability to host additional mining units.**
- **Cost: \$1.65 million**
- **Earnings:**
  - **Generates approx \$57,240 monthly at a Bitcoin price of \$60,000**
  - **Generates approx \$67,590 monthly at a Bitcoin price of \$65,000**
  - **Generates approx \$77,580 monthly at a Bitcoin price of \$70,000**

# Private Farm – 100 Miners

Our Bitcoin Mining Franchise, including private farms, is built for efficiency, consistency, and stability. With innovative designs such as overhead cable troughs, increased natural airflow, and high-capacity transformers, our facilities are optimized for superior miner performance and easy service access.

## Includes:

- **100 Bitcoin miners are housed in our facility, with the capability to host additional mining units.**
- **Cost: \$580,000**
- **Earnings:**
  - **Generates approx \$19,080 monthly at a Bitcoin price of \$60,000**
  - **Generates approx \$22,530 monthly at a Bitcoin price of \$65,000**
  - **Generates approx \$25,860 monthly at a Bitcoin price of \$70,000**

# Smaller Private Farms

## 50 Miners Private Farm

- **Cost: \$300,000**
- **Earnings:**
  - **Generates approx \$9,540 monthly at a Bitcoin price of \$60,000**
  - **Generates approx \$11,265 monthly at a Bitcoin price of \$65,000**
  - **Generates approx \$12,930 monthly at a Bitcoin price of \$70,000**

## 25 Miners Private Farm

- **Cost: \$155,000**
- **Earnings:**
  - **Generates approx \$4,770 monthly at a Bitcoin price of \$60,000**
  - **Generates approx \$5,632 monthly at a Bitcoin price of \$65,000**
  - **Generates approx \$6,465 monthly at a Bitcoin price of \$70,000**

# Online Franchise

The online franchise is an ideal way to get involved in Bitcoin mining. This option allows you to start with six miners and provides the franchise rights to market the package. As you market the service and find new Bitcoin mining franchise clients, you are rewarded with new Bitcoin miners to grow your own fleet.

## Includes:

- **6 Bitcoin miners are housed in our facility.**
- **Cost: \$39,000**
- **Earnings:**
  - **Generates approx \$1,144 monthly at a Bitcoin price of \$60,000**
  - 
  - **Generates approx \$1,351 monthly at a Bitcoin price of \$65,000**
  - 
  - **Generates approx \$1,551 monthly at a Bitcoin price of \$70,000**
